- 1999/2000 Military service completed in the Carabinieri Corps

EDUCATION AND TRAINING

- 2019 **PhD in Architecture and Urban Planning**, specialization in History and Conservation of Architectural and Urban Monuments, Faculty of Architecture, Tadeusz Kościuszko Cracow University of Technology. Title of the research "Contemporary collective spaces in the historical urban context in Europe".
- 2001 **Degree in Building Engineering and Architecture, University of Pavia**
- 1991 Scientific high-school diploma, E. Fermi High School, Bergamo

PARTICIPATION IN BOARDS, COMMITTEES AND INSTITUTIONAL ACTIVITIES

- 2025 to present President of the LM4 Degree Course in Building Engineering and Architecture at the University of Pavia for the 2025-2028 three-year term
- 2025 to present Member of the working group for the PNRR TNE HerIT4future project "Heritage for future: bridging Italy and Latin America through mutual learning and innovative teaching"
- 2022 to present Member of the PhD Board in Design Modelling and Simulation in Engineering at the University of Pavia - cycles: XXXVIII, XXXIX (membership from 9/5/2022).
- 2020 to present Director of the Museum of Electrical Technology of the University of Pavia (appointment until academic year 2027/2028)
- 2020 to present Member of the Interdepartmental Research Centre for the History of Electrical Technology (CIRSTE).
- 2013 to present President of AIM (Associazione Interessi Metropolitani).
- 2016-to present Coordinator of the Double Degree between the Master's Degree Course in Building Engineering and Architecture at the University of Pavia and the Arquitectura Técnica programme at UJI University in Castellón de la Plana (Spain).
- 2011 to present Founder and member of the board of directors of the cultural association GA-Milano (President from 2011 to 2014, Vice-President from 2014 to present).
- 2013 to present Coordinator of the AUDe (Architecture and Urban Design) research laboratory of the Department of Civil Engineering and Architecture of the University of Pavia (previously named AML - Architecture Maker Lab)

2012/2024	Coordinator of the Erasmus+ programme for the Faculty of Engineering of the University of Pavia
2012/2023	Contact person for the single-cycle Master's Degree Course in Building Engineering and Architecture at the University of Pavia.
2019/2023	Member of the Board of Directors of the University of Pavia Alumni Association.
2016/2023	Coordinator of the international Unitown network (network of university towns)
2019/2022	Member of the Expert Group of the PhD Programme in Architectural, Urban and Interior Design of the Department of Architecture and Urban Studies of the Politecnico di Milano - cycle: XXXV.
2019/2022	Member of the Scientific Committee of MM Academy (Metropolitana Milanese Spa).
2013/2020	Member of the Steering Committee of the Faculty of Engineering of the University of Pavia.
2013/2019	Member of the Interdepartmental Research Centre for the Teaching of Classical Archaeology and Ancient Technologies (CRIDACT) of the University of Pavia.
2014/2018	Member of the PhD Board in Civil Engineering and Architecture at the University of Pavia - cycles: XXX, XXXI, XXXII (membership from 6/5/2014).
2015/2018	Member of the Building Roundtable for the Province of Bergamo.
2012/2013	Member of the Organizing Committee of the Faculty of Engineering of the University of Pavia.
2009/2012	Member of the PhD Board in Civil and Building Engineering/Architecture at the University of Pavia - cycles: XXVI, XXVII, XXVIII, XXIX (membership from 28/1/2009)
2007/2012	Coordinator of the Erasmus project for the Degree Course in Building Engineering and Architecture of the University of Pavia.
2005/2013	Councillor of the Order of Engineers of the Province of Bergamo (terms 2005-2009 and 2009-2013)
2003/2012	Member of the Laboratory for Landscape and Architecture Construction (LCPa)
2002/2008	Member of the Scientific Coordination Group for the project "Conoscere Milano", promoted by Urban Center - Municipality of Milan and AIM (Associazione Interessi Metropolitani).
2003/2005	Vice-President for Architecture and member of the Operating Committee of ULI Italia (Urban Land Institute).

EDITORIAL AND REVIEWING ACTIVITY

2019 to present	Director of the editorial series "Report Milano", Vicolo del Pavone publishing house

2014 to present	Reviewer for the journal "Journal of Urban Planning and Development" (ANVUR scientific journal)
2016	Reviewer for research projects for Fondazione Cariplo
2012	Reviewer of the FIRB project "Futuro in Ricerca 2012"

INSTITUTION	AUDe (Architecture and Urban Design Lab) - University of Pavia Active since 2012 (previously named AML - Architectural Maker Lab)
ROLE DESCRIPTION	Laboratory coordinator since 2012 AUDe (Architecture and Urban Design Lab) is a research laboratory of the University of Pavia - Department of Civil Engineering and Architecture, focused on architectural and urban design. The laboratory studies architectural phenomena at the scales of the single building, the city, open spaces and the landscape, while respecting multidisciplinary dimensions that include cultural, sociological and urban-planning aspects. It considers architectural design with attention to global challenges connected with the environment, urban space and population, and to the United Nations 2030 Agenda sustainable development goals relating to sustainable cities and communities and the fight against climate change. The activities carried out within AUDe, which include basic and applied research and the dissemination of theoretical and design debate in architecture, are developed within established international networks and also address emerging markets. AUDe is also active as a teaching laboratory for the Degree Course in Building Engineering and Architecture in Pavia. Within the AUDe laboratory, lecturers of the University of Pavia, PhD students, research fellows, scholarship holders, interns and thesis students collaborate on national and international research projects and on the organization of workshops, lectures, conferences, and summer and winter design schools. AUDe collaborates with other research structures around the world, in particular with European universities (Great Britain, Spain, Belgium, the Netherlands, Poland) and non-European universities (China, Brazil, Mexico, USA). AUDe promotes research in the fields of architectural theory, architectural design, and urban and landscape design. AUDe's main research topics are: - Tools and methods for the city, the environment and the territory (analysis of urban models, sustainable urban development, urban regeneration, analysis and design of settlement models, temporary-tactical urbanism, green infrastructures and collective open spaces, urban strategies for climate control) - Sustainable tourism (analysis and design of open-air accommodation facilities, design of sustainable mobile homes) - Design and society (participatory design, commons, place making, user-centred design and experience, social housing, social inclusion) - Theory and design of architecture (architecture of collective buildings, building reuse, residential architecture, pavilions, exhibition design, interiors)
2018 to present	Principal investigator of the research “Case mobili e insediamenti all’aria aperta per il turismo sostenibile” Research on mobile homes for sustainable open-air tourism in relation to architectural, linguistic, technological, settlement and landscape aspects. Research coordinator for the University of Pavia (Budget €279,000) Funding from CrippaConcept, Faita Federcamping, PON funds of the European Commission, University of Pavia, campsites and holiday villages. <u>Main research outcomes:</u> 2019 - Design workshop “Mobile Home Ecolab. Abitare minimo e mobile” 2019 - Creation of the exhibition “Bathing Machine” at the Milan Fuorisalone, Spazio DDN, Piazza Castello; 2019 - Design and prototype of the “Wonderland” mobile home, put into production by CrippaConcept; 2019 - Design workshop “una vacanza per tutti. Nuove forme di turismo accessibile” 2020 - Design workshop “case mobili per il turismo sostenibile” 2020 - Design and prototype of a sustainable mobile home “Wonderland, Naturale, riciclata, riciclabile”, put into production by CrippaConcept; 2021 - Publication of “Safe holiday camp. Indirizzi per una vacanza sicura nelle strutture ricettive all’aria aperta”, 2021/2023 - Supervisor of a two-year research grant “Sviluppo di modelli sostenibili per le strutture ricettive all’aria aperta attraverso proposte innovative dei sistemi morfologici e del paesaggio e il progetto di case mobili ecologiche” 2022 to present - Supervisor of the PhD thesis “Case mobili green per il turismo sostenibile”, XXXVII cycle (PON funds) 2023 - Presentation of the research “Progettare lo spazio minimo delle maxi-caravan” 2026 - Curator of the exhibition “Abitare le Olimpiadi. La genesi del villeggio olimpico e paralimpico di Cortina d’Ampezzo”, at the University of Pavia, 15-18 March 2026.

Dissemination:

- 2019 - Presentation of Wonderland at the SUN outdoor tourism fair in Rimini

- 2023/2027 **Responsible for one line of action 4 of the project funded under Departments of Excellence 2023-2027 DORIAN (digital modelling to support the design of safe, sustainable and resilient environments)**
Five-year research project. Action 4, for which he is responsible, involves defining methodological protocols through design simulations of architectural and urban transformation and regeneration at the urban and public-space scale, to promote a sustainable urban environment and counter climate change.
(Total budget €6,400,000; budget allocated to the action for which he is responsible €220,000)

Expected results:

- Implementation of environmental indicators to verify quality of life in urban public spaces
- Production of design scenarios for the regeneration of open spaces.
- Construction of a dynamic model that interacts with the state of places by virtually simulating design scenarios and possible urban environments.
- Design and construction of a mobile station (Mobile Living Lab) to verify environmental conditions, study nature-based solutions for public space and promote sustainable urban practices.
- Creation and fitting-out of a Model Construction Fab Lab
- Definition of guidelines for the design of open spaces

- 2022/2026 **Responsible for research method 1 of the funded PNRR - Innovation Ecosystems NODES (North-West Digital and Sustainable) project, flagship project ForMiDaBiLÆ (Forage system to make resilient maize, dairy and biogas supply chains for a Lasting Agricultural Ecosystem)**
Three-year research project for innovation in the agri-food industry in relation to the challenges of globalization, population growth and climate change.
Research method 1, for which he is responsible, involves defining design guidelines for optimizing production buildings and their territorial organization in relation to Agriculture 4.0 innovations, bioarchitecture practices and the relationship with the landscape.
(Total budget €4,000,000; budget allocated to the action for which he is responsible €160,000)

Expected results:

- Mapping of the territory in relation to settlement and anthropic models
- Research by design through design simulations on existing case studies
- Definition of guidelines and scenarios for the design and transformation of farms in relation to global challenges and 4.0 innovation.

2023/2026	Partecipante all'unità locale dell'Università di Pavia coordinate dal prof. Stefano Maggi del Progetto PRIN PNRR 2022 / NextGenerationEU "TOUCHWELL - Archaeological Museum Collections for People's Care Welfare and Wellbeing" TOUCHWELL – Archaeological Museum Collections for People's Care, Welfare and Wellbeing è un progetto PRIN-PNRR dedicato allo sviluppo di metodologie e tecnologie per rendere le collezioni archeologiche più accessibili dal punto di vista cognitivo, fisico e sensoriale. La ricerca indaga il ruolo del patrimonio culturale nei processi di cura e benessere, attraverso digitalizzazione 3D, riproduzione fisica dei reperti ed esperienze tattili rivolte anche a persone fragili o con disabilità. L'obiettivo è integrare musei, tecnologie digitali e cultural welfare in una prospettiva inclusiva e salutogenica. <u>Main research outcomes:</u> - Digitalizzazione 3D, documentazione e riproduzione dei reperti archeologici, - Produzione di repliche fisiche per l'esplorazione tattile di reperti archeologici

2018/2021	Coordinator of the research group "Per lo sviluppo di un sistema Milano-Pavia". Multidisciplinary research promoted by the University of Pavia on the possible relationship between the cities of Milan and Pavia, involving 10 scholars from various Italian universities and experts in different disciplinary fields, from architecture to urban planning, transport, sociology and economics (Budget €25,000); <u>Main activities:</u>
2018	- Organization of the conference "Per lo sviluppo di un sistema Milano-Pavia", Pavia - Fondazione Banco del Monte di Lombardia, Milan - Triennale di Milano;
2018	- Publication of the volume "Sintesi del documento di indagine per lo sviluppo di un sistema Milano-Pavia"
2021	- Publication of the volume "Per lo sviluppo di un sistema Milano-Pavia"
2022	- Presentation of the research outcomes and the volume at the Fondazione Banco del Monte di Lombardia
2020/2023	Coordinator of the local unit of the Erasmus+ project "H2O Map. Innovative learning by hydraulic heritage mapping". Project promoting forms of teaching and learning through the use of technological and innovative tools applied to hydraulic heritage. (Total budget €283,000 - Local unit budget €39,000) Partner universities: - Universidad Jaume I (Spain, Coordinator) - University of Pavia - University of Alicante <u>Main research outcomes:</u> - E-learning courses for training teachers and students in European secondary schools - Methodological guide - App for innovative teaching on hydraulic heritage mapping - 3 international workshops - 3 dissemination events <u>The projects results were rated:</u> Project relevance: 20/20 Quality of the project implementation: 25/25 Quality of the working team and cooperation: 15/15 Impact and dissemination: 35/40 TOTAL score of the Final Report: 95.00/100 Qualitative assessment of the Final Report: Very Good
2017 to present	Coordinator of the research group "Il progetto degli spazi pubblici in relazione ai cambiamenti culturali, climatici e sociali". Research on new forms and the design of contemporary public spaces in relation to climate, cultural and social changes through the analysis of case studies and design simulations. Project funded by the University of Pavia and AIM. (Budget €21,300) <u>Main research outcomes:</u>
2018	- Volume "Piazze e spazi collettivi. Nuovi luoghi per la città contemporanea"

- 2018 - Entry "Coastal Bicycle Path Riviera dei Fiori" in the catalogue of the exhibition "Ride a Bike. Reclaim the city" at the DAM (Deutsches Architektenmuseum) in Frankfurt.
- 2018 - Entry "Masterplan Raggi Verdi" in the catalogue of the exhibition "Ride a Bike. Reclaim the city" at the DAM (Deutsches Architektenmuseum) in Frankfurt.
- 2021 - Design workshop "Towards an ecological city: water and public spaces"

- 2014/2020 **Coordinator of the research group "RiHabitato la ricerca per il futuro dell'abitare".**
Research on design innovation in the reuse of residential buildings through regulatory review. Project funded by the University of Pavia and AIM. (Budget €15,000)

Main research outcomes:

- 2015/2018 - Member of the Regulations Roundtable within the "Tavoli dell'Edilizia" of the Municipality of Bergamo (2015-2018)
- 2016 - Agreement with the Municipality of Pavia: "Riuso del patrimonio edilizio esistente e rigenerazione urbana";
- 2013/2017 - Supervisor of the PhD thesis "Il riuso degli edifici esistenti a scopo residenziale in Italia: nuovi standard per l'innovazione dei modelli abitativi". XXIX cycle
- 2019 - Representative of the University of Pavia at the joint hearing of Senate Committees 9 and 13 regarding bills on land consumption (2019);
- 2019 - Volume "Borghi rinati. Paesaggi abbandonati e interventi di rigenerazione"

- 2014/2022 **Coordinator of the research group "Architettura parametrica e digital fabrication".**
Research on digital fabrication and parametric architecture, and on the use of 3D printing for the study of architecture:

Main research outcomes:

- 2014/2018 - Supervisor of the PhD thesis "Methodologies Research on Material Performance-Based Digital Tectonics of Wood Architecture". Co-supervisor Prof. Philip Yuan, Tongji University of Shanghai. XXX cycle.
- 2020/2021 - Supervisor of the PhD thesis "Digital fabrication for concrete frame structures". XXXI cycle.
- 2015/2022 - Supervisor of a research grant "Digital fabrication for performance-based wood architecture"
- Coordinator of research activities for 3D printing models:
 - Models of ideal cities from ancient thought (Miletus, Agrigento, Metapontum, Olynthus);
 - 3D model of the city of Pavia;
 - Reconstruction of Pavia in 1525 for the exhibition "Pavia, la battaglia, il futuro. Niente fu come prima" (Pavia, Castello Visconteo, 2015);
 - Urban and building models from drone surveys;
 - Models of modern Milanese architecture.
 - Morphological models of modern thought.

- 2014-2017 **Coordinator of the research group "Immaginare la città ideale".**
Research on design hypotheses for ideal city models based on Aristotle's thought, promoted within CRIDACT (Interdepartmental Research Centre for the Teaching of Classical Archaeology and Ancient Technologies) in collaboration with Prof. Cesare Zizza (L-ANT/02 Greek History).

Main research outcomes:

- 2017 - Curator of the exhibition "La cité antique entre le ciel et la terre. Narrations, projets techniques et 3D-images d'expérimentations utopiques",
- Design workshop "Imagining the Ideal City" on the proposal of ideal cities based on the Aristotelian model, starting from the archaeological traces of Olynthus, Metapontum, Agrigento and Miletus

Publications:

C. Berizzi, C. Zizza, "Designing the Ideal City of Aristotle's Thought"

2014 to present **Coordinator of the research group "L'architettura del moderno a Milano".**

Research on modern Milanese architecture since 1920.

Main research outcomes:

- 2015 - Exhibition "l'architettura del moderno a Milano"
- 2015 - Creation of 3D-printed models of modern Milanese architecture (Torre Velasca-BBPR, Casa al Parco-Gardella, Casa in via S. Caterina da Forlì-Asnago e Vender, Pirelli Skyscraper-Ponti, Casa in via Gvirate-Magiarotti Morassutti, Casa in Piazza Carbonari - Caccia Dominioni, Casa in via Nieve - Caccia Dominioni, Casa del Cedro-Minoletti);
- 2015 - Volume "Guida all'architettura di Milano" in two editions: Italian and English
- 2018 - Supervisor of a two-year research grant "Linguaggi e tecniche dell'architettura contemporanea in relazione ai concetti di tradizione e identità"
- 2019 - Second edition of the volume "Guida all'architettura di Milano" in two editions: Italian and English
- 2020/2023 - Collaboration in the research "Archimapping", a project promoted by Politecnico di Milano and AIM with the support of Fondazione Politecnico and the contribution of Fondazione di Comunità (Budget €110,000). Scientific supervisor Prof. Federico Bucci.
Archimapping maps 100 modern buildings with an app, enabling users to create customized itineraries online and independently deepen their knowledge of these architectures.

- 2011-2012 Research assignment "Studio dei caratteri architettonici, tipologici, linguistici e materici del Borgo San Leonardo di Bergamo", project funded by Compagnia della Roggia Morlana, Bergamo (€5,000).

INSTITUTION **LCPa - Laboratory for Landscape and Architecture Construction - University of Pavia**

ROLE DESCRIPTION **Researcher within the laboratory between 2005 and 2010**
LCPa is a research laboratory in architectural and urban design at the University of Pavia.

Main research activities carried out in collaboration within the laboratory:

- 2010 - Morphological and Territorial Analysis of Pavia. University of Pavia - Tongji University of Shanghai.
- 2010 - Restoration of the monumental Centro Agostiniano complex in San Pietro in Ciel d'Oro, Pavia.
- 2007/2011 - Artistic direction of the Piazza della Chiesa and Piazza del Municipio project for the Municipality of San Genesio ed Uniti, Pavia.
- 2008/2010 - PRIN 2007 project, Area 08 - "Il progetto degli spazi ipogei: nuove architetture per l'utilizzo del sottosuolo in contesti urbani e/o paesaggisticamente rilevanti". Participating member of the national unit research group.

- 2006/2009 - Restoration of the Monumental Complex of the Cardinale Agostino Riboldi University College and the Church of Santi Filippo e Giacomo in Pavia.
- 2006 - Public space, routes and urban design in relation to the morphological structure and temporal functioning parameters of the city-territory and its services
- 2006 - “Studio di rinnovo paesaggistico finalizzato allo sviluppo e alla valorizzazione del Naviglio Pavese e dell’area del Palazzo dell’esposizione di Pavia” for the Lombardy Region
- 2005 - “Individuazione di criteri di valutazione paesistica dei progetti” for the Municipality of Lodi.
- 2004 - “Un piano d’area per Pavia. La città universitaria”.

INSTITUTION **AIM (ASSOCIAZIONE INTERESSI METROPOLITANI)**

ROLE **Consultant (from 2002 to 2012)**
DESCRIPTION **President (from 2013 to present)**

AIM is a non-profit cultural association involving banks, companies and public and private bodies to promote research activities and projects supporting Milan and its metropolitan area in economic, social and cultural development. AIM's current members are Intesa Sanpaolo, Scenari Immobiliari and DILS. It has developed projects and research funded by its members and by other bodies including Fondazione Cariplo, Cassa Depositi e Prestiti, Fondazione Housing Sociale, Order of Architects of Milan, Order of Architects of Turin, and Order of Architects of Cuneo. During this period AIM has also collaborated with Fondazione Politecnico, Triennale di Milano, Collegio degli Ingegneri e degli Architetti di Milano, INU, Metropolitan City of Milan and numerous municipalities in the Milan metropolitan area. (www.aim.milano.it).

- 2020/2024 **Proposer and project manager of “Dietro l’angolo” and “Dietro l’Angolo 2”.**
A social and cultural activation project with residents of Milan Lambrate, Corvetto and Quarto Oggiaro, promoted by AIM - Associazione Interessi Metropolitani with the support of Fondazione di Comunità Milano, the partnership of Acli and Noicooop, and the sponsorship of Intesa Sanpaolo. (Total budget of the two projects €186,000).

Main research outcomes:

- Organization of guided tours in 6 Milan neighbourhoods to discover new architecture and the identity of the neighbourhoods.
- Production of 41 video interviews with neighbourhood protagonists.
- Creation of informational booklets about the neighbourhoods
- Organization of 6 workshops with local residents

- 2020/2023 **Scientific consultant for the project “Archimapping. Un museo diffuso dell’architettura moderna in città”**
Project promoted by Politecnico di Milano and AIM with the support of Fondazione Politecnico and the contribution of Fondazione di Comunità (Budget €110,000). Scientific supervisor Prof. Federico Bucci. Archimapping maps 100 modern buildings, enabling users to create customized itineraries online and independently deepen their knowledge of these architectures.

Main research outcomes:

- “Archimapping” app for Apple and Android devices and a website with entries, bibliographic details and drawings of the main modern architectures of Milan.
- Meetings in schools to raise awareness of modern architectural heritage.
- Published in the ADI Design Index 2024 and nominated for the Compasso d’Oro ADI 2026 award.

- 2020/2021 **Member of the Advisory Group of the ESPON project, co-financed by European regional development funds, “IMAGINE Developing a metropolitan-regional imaginary in the Milano-Bologna urban region”, coordinated by Politecnico di Milano, Sciences Po, Globus et Locus.**
Research project launched in June 2020 by ESPON (the European Spatial Planning Observation Network of the European Commission) to study the transregional system extending between Milan and Bologna. IMAGINE aims to respond to the social and economic challenges opened by the urbanization processes that have recently characterized the urban macro-region of Milan-Bologna, where the opportunities generated by the high-speed rail corridor have been accompanied by growing inequalities between places and new forms of social marginality that threaten territorial cohesion.
IMAGINE proposed the development of a strategic vision for the development and governance of the Milan-Bologna urban macro-region.
