

Curriculum Vitae

Andrea Moiola

7th November 2024

1 Personal data

First name Andrea
Last name Moiola
Current position Associate professor
Work address Dipartimento di Matematica “F. Casorati”,
 Università degli Studi di Pavia, Via Ferrata 5, 27100 Pavia, Italy
Room E15
Phone (office) +39 0382 985656
E-mail address andrea.moiola@unipv.it
Web <https://euler.unipv.it/moiola/>

2 Employment

- Since July 2020 I am associate professor in numerical analysis at the Department of Mathematics “F. Casorati” of the University of Pavia, Italy. I have obtained the national habilitation in numerical analysis (01/A5) as associate professor (PA, 28.3.2017–28.3.2026) and as professor (PO, 9.11.2020–9.11.2031).
- From July 2017 to June 2020 I was a “*ricercatore a tempo determinato di tipo B*” (RTDB, equivalent to lecturer/assistant professor) at the Department of Mathematics “F. Casorati” of the University of Pavia.
- From March 2013 to June 2017 I was “senior research fellow” at the Department of Mathematics and Statistics of the University of Reading, UK (permanent position equivalent to lecturer).
- From March 2012 to February 2013, I held a postdoctoral position at the Department of Mathematics and Statistics of the University of Reading under a “Fellowship for prospective researchers” on “[Computational wave propagation](#)”, funded by the Swiss National Science Foundation (SNSF). During the fellowship I was supervised by Prof. S.N. Chandler-Wilde.
- From September 2008 to November 2011, I was scientific assistant at the Seminar for Applied Mathematics (SAM) of the ETH Zürich, Switzerland. Funded to carry out research on the project “[Plane Wave Discontinuous Galerkin](#)” towards a PhD and to carry out teaching duties for undergraduate students.

3 Education

- PhD at ETH Zürich – SAM, Seminar for applied mathematics, 2008–2011
 - Thesis Trefftz-discontinuous Galerkin methods for time-harmonic wave problems
 - Supervisor Prof. R. Hiptmair
 - Co-supervisor Prof. I. Perugia
 - Viva 15 September 2011
 - Funding Swiss National Science Foundation
- Master Degree in Mathematics, University of Pavia (*Laurea specialistica*), 2006–2008, Cinquini–Cibrario prize.
- Bachelor Degree in Mathematics, University of Pavia (*Laurea triennale*), 2003–2006.
- Alumnus of [Collegio Ghislieri](#), Pavia, 2003–2008.
- Alumnus of the *Institute for Advanced Study* in Pavia ([IUSS](#)), undergraduate internal courses, 2003–2008.

4 Scientific talks

Invited talks at conferences and workshops

- Lions–Magenes days, Pavia (remotely), 21–22 May 2024.
- “Contemporary challenges in Trefftz methods, from theory to applications”, Casa Matemática Oaxaca (remotely), 12–17 May 2024.
- “High order finite element and isogeometric methods” (HOFEIM), Larnaca, Cyprus, 29 May–1 June, 2023.
- “Computational methods for multiple scattering”, Isaac Newton Institute, Cambridge, 17–21 April 2023.
- “Fractals in Pure and Applied Sciences”, Roma, 15–17 March 2023.
- Oberwolfach workshop “At the interface between semiclassical analysis and numerical analysis of wave scattering problems”, 25–30 September 2022.
- “Second conference of young applied mathematicians” (YAMC), Arenzano, 18–22 September 2022.
- “Scattering and propagation of waves: theoretical and computational challenges”, Reading, 27–29 June 2022.
- “Solvers for frequency-domain wave problems and applications”, Glasgow, 20–24 June 2022.
- “Calcolo scientifico e modelli matematici: alla ricerca delle cose nascoste attraverso le cose manifeste”, Roma, 6–8 April 2022.
- “Scattering by random heterogeneous media” workshop, Augsburg, 13–15 September, 2021.
- “Interplay of multiscale data assimilation and data science with advanced PDE discretizations”, ESI Vienna, 25–29 June, 2018. Part of the ESI programme “Numerical Analysis of Complex PDE Models in the Sciences”.
- Oberwolfach workshop on “Space-time Methods for Time-dependent PDEs”, 12–18 March 2017.
- “Space-Time Methods for PDEs”, RICAM Linz, Austria, 7–11 November 2016.
- LMS–EPSRC Symposium, “Mathematical and Computational Aspects of Maxwell’s Equations”, Durham, 11–21 July 2016.
- “Computational and Numerical Analysis of Transient Problems in Acoustics, Elasticity, and Electromagnetism”, BIRS, Banff, Canada, 17–22 January 2016.
- LMS–EPSRC Symposium, “Building bridges: connections and challenges in modern approaches to numerical PDEs”, Durham, 8–16 July 2014.
- “British Computational PDEs Colloquium: New Trends”, ICMS, Edinburgh, 23–24 January 2014.
- Oberwolfach workshop on “Computational electromagnetism and acoustics”, 20–26 January 2013.
- Workshop on: “Non-Standard Numerical Methods for PDE’s”, Pavia, Italy, 29 June–2 July 2010.
- Oberwolfach workshop on “Computational electromagnetism and acoustics”, 14–20 February 2010.

Invited contributions to minisymposia at conferences

- XXII UMI conference (“Unione Matematica Italiana”), Pisa, 4–9 September 2023.
- SIMAI conference, Matera, 28 August–1 September 2023.
- XXI UMI conference (“Unione Matematica Italiana”), Pavia, 2–7 September 2019.
- ICIAM 2019, Valencia, 15–19 July 2019.
- MAFELAP 2019, Brunel, 17–21 June 2019.
- WONAPDE 2019, Concepción, Chile, 21–25 January, 2019 (two minisymposia).
- “Inverse Problems: Modeling and Simulation” conference, Malta, 21–25 May 2018.
- Equadiff, Bratislava, 24–28 July 2017.
- International Conf. on Domain Decomposition Methods, DD XXIV, Svalbard, Norway, 6–10 February 2017.
- MAFELAP 2016, Brunel university, UK, 14–17 June 2016.
- XXIV CEDYA / XIV CMA conference, Cadiz, Spain, 8–12 June 2015.
- MAFELAP 2013, Brunel university, UK, 10–14 June 2013.
- 3rd European Seminar on Computing (ESCO2012), Pilsen, Czech Republic, 25–29 June 2012.
- DSPDEs’10, Barcelona, 31 May–4 June, 2010.
- WONAPDE 2010, Concepción, Chile, 11–15 January, 2010.
- MAFELAP 2009, Brunel university, UK, 9–12 June, 2009.

Invited research seminars

- PDE afternoon, University of Vienna, 11 May 2022.
- CIDMA, University of Aveiro, Portugal, 17 March 2022.
- [One World Numerical Analysis](#), online, 21 February 2022.
- Department of Mathematics, Sapienza University, Roma, 14 May 2019.
- Oldenburg, 15 November 2018.
- Bologna, 20 June 2018.
- SBAI, Sapienza University, Roma, 21 March 2018.
- SAM, ETH Zürich, 2 November 2016.
- Hamburg University of Technology, 23 June 2016.
- Laboratoire Poems, ENSTA-INRIA-CNRS, Palaiseau, 18 November 2015.
- Durham, 29 April 2015.
- Bath, 20 February 2015.
- Oxford, 15 May 2014.
- University of Vienna, 24 March 2014.
- Collège de France, Paris, 17 May 2013.
- Leicester, 18 October 2012.
- Strathclyde, 17 April 2012.
- Bath, 23 March 2012.
- Reading, 12 March 2012.
- Chinese University of Hong Kong, 9 September 2009.

Contributed talks at conferences

- “Waves 2024”, Berlin, 1–5 July 2024.
- “Advanced Numerical Methods for Non-Local Problems”, Istanbul, 9–11 January 2024
- “Waves 2022”, Paris, 25–29 July 2022.
- “Mathematics of wave phenomena”, online/Karlsruhe, 14–18 February 2022.
- GNCS meeting, Montecatini, 11–13 February 2020.
- “Waves 2019”, Vienna, 25–30 August 2019.
- “New directions in numerical computation”, Oxford, 25–28 August 2015.
- “Waves 2015”, Karlsruhe, 20–24 July 2015.
- “Boundary & finite element methods for high frequency scattering problems”, Reading, 15–16 Dec. 2014.
- “Waves 2013”, Gammarth, Tunisia, 3–7 June 2013.
- “InnoWave”, Nottingham, 3–7 September 2012.
- Finite Element Fair/Rodeo/Circus, Paris, 3–4 June 2011.
- “Highly Oscillatory Problems: From Theory to Applications”, Cambridge, 12–17 September 2010.
- Swiss Numerics Colloquium, Basel, 24 April 2009.

Other talks at research seminars

- IMATI–CNR, Pavia, 12 April 2019.
- PDE seminar, Reading, 18 October 2016.
- Numerical analysis research afternoon, Reading, 30 October 2013.
- Brain Embodiment Lab, Reading, 25 September 2013.
- Waves group meeting, Reading, 26 March 2013.
- Reading departmental analysis day, 19 October 2012.
- Pro*Doc summer retreat, Disentis, 18–21 August 2010.

Poster presentations

- “Wave Propagation and Scattering, Inverse Problems and Applications in Energy and the Environment”, RICAM Linz, Austria, 21–25 November 2011.

5 Grants and invitations

Grants (as PI or co-PI)

- PRIN 2022 (202292JW3F), “Advanced Space-Time discretization methods: theory, solvers and applications (ASTICE)”, € 209 000, PI. Italian Ministry of University & Research + European Union–NextGenerationEU. 2023–2025. Team members: G. Ciaramella, C. Marcati, L. Mascotto, I. Mazzieri.
- GNCS contribution to the PoWER2023 workshop, 7.2023, € 1 200. With S. Falletta, M. Ferrari, L. Scuderi.
- “Research in pairs”, CIRM, Trento, 2023. With L.-M. Imbert-Gérard and P. Stocker.
- GNCS project 2019, “Metodi numerici non-standard per PDEs: efficienza, robustezza e affidabilità”, € 6 100, PI.
- ANVUR “Finanziamento delle attività base di ricerca” (FFABR), 2017, € 3 000.
- EPSRC (British Engineering and Physical Sciences Research Council) First Grant EP/N019407/1 on “Discretisations of sign-definite formulations for the Helmholtz equation”, 2016–2018, £ 100 000, PI. Ranked first in November 2015 EPSRC Mathematics prioritisation panel meeting. (The grant was transferred to S.N. Chandler-Wilde when I left UK.)
- London Mathematical Society Conference Grant–Scheme 1, to organise a workshop on “Recent advances in discontinuous Galerkin methods” at Reading, 2016, with T. Pryer (£ 1 300).
- London Mathematical Society Conference Grant–Scheme 1, to organise a workshop on “Recent advances in discontinuous Galerkin methods” at Reading, 2014, with A. Chernov and T. Pryer (£ 1 800).
- SNSF “Fellowship for prospective researchers” on “Computational Wave Propagation” at the Department of Mathematics and Statistics of the University of Reading, March 2012–February 2013 (42 000 Swiss francs).
- Exchange Ph.D. student at the Chinese University of Hong Kong under the “Global Scholarship Programme for Research Excellence—CNOOC Grants”, September–October 2009 (HK\$ 15 000, ~€ 1 470).
- Several small travel grants to attend conferences (WONAPDE 2010 in Concepción, DSPDEs in Barcelona, ESF conference in Cambridge, two OWLG grants for workshops in Oberwolfach, CIME in Cetraro, UoR “Research Travel Grant” for CEDYA in Cadiz, IMA small grant for workshop in Banff).

Participation in other projects and grants

- GNCS project 2024, “Metodi numerici avanzati per problemi nonlineari in scienza dei materiali”. PI: M. Ruggeri.
- PRIN 2022–PNRR (P2022NC97R), “Next generation numerical Technologies for design and Simulation – NOTES”. European Union–NextGenerationEU. PI: G. Sangalli. 2023–2025.
- PNRR “National research center in high performance computing, big data and quantum computing”, Spoke 6 “Multiscale modeling and engineering applications”. European Union–NextGenerationEU. 2022–2024.
- GNCS project 2023, “Metodi numerici per problemi di propagazione di onde con incertezza”. PI: G. Ciaramella.
- GNCS project 2022, “Metodi numerici efficienti e innovativi per la risoluzione di PDE”. PI: M. Tani.
- GNCS project 2020, “Aspetti teorici e numerici di tecniche innovative per la risoluzione di PDE”. PI: L. Tamellini.
- Regione Lombardia “Hub ricerca e innovazione”, CE4WE: Circular Economy for Water and Energy, 2020–2022.
- PRIN 2017 (201752HKH8) NA-FROM-PDEs, “Numerical analysis for full and reduced order methods for the efficient and accurate solution of complex systems governed by PDEs”. PI: G. Rozza. 2019–2022.
- Visiting Researcher on the EPSRC grant EP/S01375X/1, “Integral equations on fractal domains: analysis and computation”, August 2019–July 2021. PI: D.P. Hewett (UCL).
- GNCS research project 2018, “Metodi non conformi per equazioni alle derivate parziali”. PI: A. Veiser.
- SNSF ProDoc grant 124883, “Plane wave discontinuous Galerkin methods”, 2009–2011. PI: R. Hiptmair.

Invited research visits and scientific programmes

- Erwin Schrödinger Institute (ESI) thematic programme, Vienna, 25 June–20 July 2018.
- Isaac Newton Institute (INI) programme, Cambridge, 17 April–5 May 2023.
- Laboratório Nacional de Computação Científica, Petropolis (Brazil), 23–27 Jan. 2012.

- Pontificia Universidad Católica de Chile, Santiago, 4–8 February 2019.
- SAM, ETH Zürich, 1–4 November 2016, 29 May–1 June 2018, 24–29 June 2019.
- Sapienza University, Roma, 13–16 May 2019.
- University College of London, 11–13 April 2011, 13–17 June 2022.
- University of Bath, 7–11 January 2019.
- University of Reading, 8–10 September 2010, 5–8 April 2011, 23–27 April and 4–8 June 2018.
- University of Vienna, 24–28 March and 23–27 June 2014, 7–16 April 2016, 9–13 May 2022.

7 Teaching and supervision

Courses

- From 2019 to 2024, Spring term, “*Advanced numerical methods for PDEs*”, mathematics, master and PhD students, Pavia. Joint with C. Marcati (2023–2024), F. Brezzi (2020–2022) and G. Sangalli (2019–2020).
- From 2017 to 2024, Autumn term, “*Modellistica numerica*” (numerical modelling), third-year undergraduate mathematics students, Pavia.
- From 2019 to 2024, Autumn term, “*Complementi di matematica*” (basic PDEs and numerical methods), engineering, master students, Pavia. Joint with L.D. Marini (2019–2021) and F. Gardini (2022–2023).
- 2016 and 2017, Spring terms, “*Numerical methods for financial engineering*”, master students at the ICMA Centre of the Henley Business School in Reading.
- From 2013 to 2016, Autumn term, “*Vector calculus*”, second-year mathematics students at Reading.

Student evaluation reports: <https://sisvaldidat.unifi.it/> (in Italian).

From January 2014 to July 2015 I have attended the Academic Practice Programme (APP) at the University of Reading and in October 2015 I have been recognised as Fellow of the Higher Education Academy (HEA).

Lecture notes and teaching material available online

- Scattering of time-harmonic acoustic waves: Helmholtz equation, boundary integral equations and BEM, <https://euler.unipv.it/moiola/T/MNAPDE2024/MNAPDE2024.html>
- Numerical modelling (in Italian), <https://euler.unipv.it/moiola/T/MN2024/MN2024.html>
- Vector calculus, <https://euler.unipv.it/moiola/ReadG/VC2016/VC2016.html>

Tutorial series

Term/Semester:	Course:	Students:	
Spring 2017	<i>linear algebra</i>	mathematics	Reading
Autumn 2016	<i>linear algebra</i>	mathematics	Reading
Spring 2016	<i>real analysis</i>	mathematics	Reading
Spring 2015	<i>algebra</i>	mathematics	Reading
Autumn 2014	<i>foundation of mathematics</i>	mathematics	Reading
Spring 2014	<i>real analysis 1</i>	mathematics	Reading
Autumn 2013	<i>foundation of mathematics</i>	mathematics	Reading
Autumn 2012&Spring 2013	<i>algebra 1</i>	mathematics	Reading
Autumn 2010	<i>numerical methods for CSE</i>	computer science & CSE	ETH Zürich
Spring 2010	<i>numerical mathematics</i>	mechanical engineering	ETH Zürich
Autumn 2008	<i>linear algebra</i>	civil engineering	ETH Zürich
Autumn 2006 & 2007	<i>mathematical analysis and informatics</i>	biotechnology	Pavia
Autumn 2006 & 2007	<i>"pre-class" of mathematics</i>	biology	Pavia

Supervision

- 2023.10–... , A.M. Monforte, PhD student (as tutor).
- 2023.10–... , C. Perinati, PhD student.
- 2022.05–08, A. Sardi, visiting intern student from ENSTA Paris.
- 2021.10–... , P. Bignardi, PhD student.
- 2021.04–2021.09, P. Bignardi, scholarship.
- 2021.01–2022.12, [E. Parolin](#), postdoc.
- 2020.11–... , F. Locatelli, PhD student.
- 2020.10–2024.02, [S. Gómez](#), PhD student, Pavia, thesis on “Nonconforming space–time methods for evolution PDEs”. Now postdoc at Milano Bicocca.
- 2019.10–2020.02, [P. Stocker](#), visiting PhD student from Univ. of Vienna. Now postdoc in Vienna.
- 2016.06–2017.06, [G.C. Diwan](#), postdoc, Reading. Now Acoustic Engineer at FT Technologies.
- 2016–2020, [K. McCusker](#), PhD student, Reading, thesis on “Fast, approximate methods for electromagnetic wave scattering by complex ice crystals and snowflakes”, main supervisor C. Westbrook (Meteorology). Now postdoc at Reading.
- 2013–2017, [A. Gibbs](#), PhD student, Reading, thesis on “Numerical methods for high frequency scattering by multiple obstacles”, co-supervised with S. Langdon and S.N. Chandler-Wilde. Now postdoc at UCL.
- Master in mathematics final dissertations (*Laurea magistrale*), Pavia:
 1. C. Perinati, “A quasi-Trefftz DGM for the homogeneous diffusion-advection-reaction eq. with piecewise-smooth coefficients”, 2023.
 2. A.M. Monforte, “Plane wave discontinuous Galerkin methods for scattering by periodic structures”, 2023.
 3. N. Galante, “Evanescent plane wave approximation of Helmholtz solutions in spherical domains”, 2023, superv. with E. Parolin. **Con.Scienze national prize**: best dissertation in mathematics.
 4. S. Fraschini, “Stability of space–time isogeometric methods for wave propagation problems”, 2021, supervised with G. Sangalli.
 5. F. Locatelli, “Migrazione di CO2 in strutture geologiche profonde: modelli e metodi numerici”, 2020, superv. with S. Manenti.

All of them are currently PhD student, either in Pavia, Vienna, or Paris (INRIA). [\(Link to abstracts\)](#)
- BSc in mathematics final dissertations (*Laurea triennale*), Pavia:
 1. C. Marinelli, “Onde biologiche caratteristiche dei modelli numerici per singole specie”, 2024.
 2. S. Medaglia, “L’interpolazione baricentrica di Lagrange”, 2023.
 3. N. Mondini, “Metodo di lightning”, 2022.
 4. L. Labati, “Problemi di diffusione ellittici e parabolici, separazione delle variabili ed elementi finiti”, 2022.
 5. A. Gervasio, “Metodo delle differenze finite per l’approssimazione dell’equazione del calore”, 2022.
 6. S. Tonali, “Fast Marching Method: analisi teorica e implementazione numerica”, 2021.
 7. C. Perinati, “Applicazioni del metodo degli elementi finiti ai quantum graphs”, 2021.

8. F. Dabraio, “Adattività hp per il metodo degli elementi finiti in una dimensione”, 2021.
 9. S. Regola, “Onde acustiche: metodi numerici per la risoluzione dell’equazione di Helmholtz”, 2020.
 10. M. Carcano, “Analisi di alcuni modelli di reazione e diffusione per la dinamica delle popolazioni”, 2020.
 11. E. Cerri, “Quantificazione dell’incertezza per un problema di diffusione”, 2020.
 12. N. Galante, “Un’analisi a posteriori per il metodo degli elementi finiti”, 2020.
 13. U. Zerbinati, “Second order finite difference methods for the wave equation with Dirichlet boundary conditions”, 2020.
 14. A. Massimini, “Modellizzazione degli tsunami: il metodo aggiunto per il raffinamento della griglia computazionale”, 2019.
 15. M. Silvestri, “Approssimazione numerica delle figure di Chladni tramite metodo spettrale”, 2019.
 16. A. Kushova, “Calcolo dello spettro dell’operatore di Schrödinger senza risoluzione di problemi agli autovalori”, 2018.
- Between 2013 and 2017 at Reading I have supervised an MMath fourth-year project and 14 BSc third-year projects. I have also been personal tutor of 22 undergraduate students.

PhD student examination

- I. Labarca, “Coupled Boundary-Volume Integral Equations for Wave Propagation”, ETH Zürich, advisor R. Hiptmair, 2024, external examiner.
- J. Pinto, “Spectral methods for boundary integral equations in complex media”, Pontificia Universidad Católica de Chile, advisor C. Jerez-Hanckes, 2021, external examiner.
- S. Fracapane, “Regularity and asymptotics for p -Laplace type operators in fractal and pre-fractal domains”, Roma, advisor M.A. Vivaldi, 2018, external examiner.
- L. Swift, “Geometrically unfitted finite element methods for the Helmholtz equation”, UCL, advisor E. Burman, 2017, external examiner.
- A. Reinarz, “Sparse space-time boundary element methods for the heat equation”, Reading, advisor A. Chernov, 2015, internal examiner.

I am member of the faculty board (*collegio dei docenti*) of the UniPv–USI “International PhD Program in Computational Mathematics, Learning, and Data Science” (<http://compmat.unipv.it/>).

I have also been in the monitoring committee for several PhD students at Reading.

8 Other activities

Organisation of scientific events and participation in scientific committees

- “Boundary value problems and applications – The legacy of Enrico Magenes”, Pavia, 21 November 2023.
- Minisymposium on “Space–time numerical methods and applications”, at the SIMAI conference, Matera 28 August–1 September 2023. With I. Mazzieri.
- “PoWER2023, Propagation of Waves: European Researchers in Turin”, 26–28 July 2023. With S. Falletta, M. Ferrari, L. Scuderi.
- Member of the scientific committee of the Waves conference series (2022 Paris, 2024 Berlin).
- “Very informal seminars” series, Pavia. Co-organised with L. Spinolo and L. Tamellini, since 2021.
- Minisymposium on “Analysis and numerical methods for wave problems in heterogeneous media and complicated domains”, at the Waves 2019 conference, Vienna, 25–30 August 2019. With L.M. Imbert-Gérard and E.A. Spence.
- Part of the local organising committee of HOFEIM 2019, “High-Order Finite Element and Isogeometric Methods Workshop”, Pavia, 28–31 May 2019.
- Workshop on “Wave propagation in complex domains”, UCL, 30 March 2017. Co-organised with D.P. Hewett and S.N. Chandler-Wilde.
- “ReaDG” workshop on “Recent advances in discontinuous Galerkin methods”, Reading, 13 June 2016. Supported by the London Mathematical Society, co-organised with T. Pryer.
- Minisymposium on “Wave-based discretisations” at the Waves 2015 conference, Karlsruhe, 20–24 July 2015. Co-organised with D.P. Hewett.
- “ReaDG” workshop on “Recent advances in discontinuous Galerkin methods”, Reading, 11–12 September 2014. Supported by the London Mathematical Society, co-organised with A. Chernov and T. Pryer.

Other conferences and schools attended (no presentations given)

- *Incontro annuale dei ricercatori in matematica*, Pavia, 24–25 January 2024.
- Boundary value problems and applications – The legacy of Enrico Magenes, Pavia, 21 November 2023.
- CANuTo23, Torino, 2–4 November 2023.
- CompMat PhD workshop, Pavia, 22 May 2023.
- Propagation of mechanical waves in deformable solids and meta-materials, Pavia, 5–9 September 2022.
- MOX20, Milano, 27 May 2022.
- Structure, Regularity, and Robustness in the Approximation of PDEs, Milano, 10 February 2020.
- HOFEIM 2019, High-Order Finite Element and Isogeometric Methods Workshop, Pavia, 28–31 May 2019.
- IGA 2017, International Conference on Isogeometric Analysis, Pavia, 11–13 September 2017.
- IperPV2017, the XVII Italian Meeting on Hyperbolic Equations, Pavia, 6–8 September 2017.
- POEMS 2017, Polytopal Element Methods in Mathematics and Engineering, Milano, 5–7 July 2017.
- 7th meeting of Reading-Bath-Cardiff network on gener. solutions for nonlinear PDEs, Reading 13 June 2017.
- Mathematics in the Spirit of Joe Keller, Turing Gateway to Mathematics, Cambridge, 2–3 March 2017.
- Modern topics in nonlinear PDEs and geometric analysis, LMS–CMI research school, Reading, 4–8 July 2016.
- 3rd International Conference on Neural Field Theory, Reading, 16–18 June 2014.
- CIME course on Computational Electromagnetism, Cetraro, Italy, 9–14 June 2014.
- Recent Advances in Nonlinear PDEs and Calculus of Variations, Reading, 12–14 February 2014.
- Analysis of PDEs, symposium in honour of V. Maz’ya, Liverpool, 16–17 December 2013.
- From Spectral Gaps to Particle Filters workshop, Reading, 17–18 September 2013.
- Data Assimilation and Inverse Problems summer school, Reading, 22–26 July 2013.
- CNS 2013, Computational Neurosciences Meeting, Paris, 13–18 July 2013.
- LMS–EPSRC short course on Modern Nonlinear PDE Methods in Fluid Dynamics, Reading, 8–12 July 2013.
- NETT Neural Engineering summer school, Nottingham, 1–5 July 2013.
- Meeting on Riemann-Hilbert problems and their applications, Reading, 29–30 May 2013.
- SIAM–UKIE annual meeting, Reading, January 8, 2013.
- Zürich Summer School 2012 on “A Posteriori Error Control and Adaptivity”, 20–24 August 2012.
- “Mathmondes 2012”, French-British Network on Waves, Reading, 9–10 July 2012.
- Conference in honour of Nancy Nichols’ 70th birthday, Reading, 2–3 July 2012.
- ICMS Workshop on “BVPs for linear elliptic and integrable PDEs”, Edinburgh, 28 May–1 June 2012 (invited).
- Second international conference on Neural Field Theory, Reading, 19–21 April 2012.
- Numerical analysis postgraduate seminar day, Reading, 30 March 2012.
- Colloquium on “Analysis and numerics of PDEs”, in memory of Enrico Magenes, Pavia, 2–4 November 2011.
- Workshop on “Advances in computational wave propagation”, UCL, London, 2–3 September 2011 (invited).
- Pro*Doc summer retreat, Disentis, 17–19 August 2011.
- Swiss Numerics Colloquium, Università della Svizzera Italiana, Lugano, 6 May, 2011.
- “Numerical methods for hyperbolic equations, recent trends and future directions”, 18–19 February 2011.
- “Next generation numerical methods for comput. wave propagation”, Cambridge, 17–18 Sept. 2010 (invited).
- Zürich Summer School on “Sparse tensor discretisations of high-dimensional problems”, 23–27 August 2010.
- ACE’10–6th Workshop on Advanced Computational Electromagnetics, ETH Zürich, 5–7 July 2010.
- Swiss Numerics Colloquium, ETH Zürich, 16 April 2010.
- Pro*Doc summer retreat, Disentis, 16–19 August 2009.

Visitors hosted (in Pavia)

- L.M. Imbert-Gérard, 3-4 July 2023.
- T. Chaumont-Frelet, 15-18 November 2022.
- D. Huybrechs, 13-17 January 2020.
- P. Stocker, October 2019-February 2020, 18-22 March 2024.
- N. Galante and E. Parolin, 30 September-4 October 2024.
- A. Gibbs, 12-15 November 2019.
- C. Jerez-Hanckes, 23-25 October 2018.
- D.P. Hewett, 16-19 April 2018, 16-20 October 2023, 4-7 November 2024.
- E.A. Spence, 12-16 February 2018, 26-29 April 2022.

Professional affiliations

- Fellow (*associato con incarico di ricerca*) of the **IMATI-CNR**, Pavia, since March 2021.
- **SIAM**, Society for Industrial and Applied Mathematics, since 2010.
- **GNCS**, Gruppo Nazionale di Calcolo Scientifico of the Istituto Nazionale di Alta Matematica (INdAM).
- **UMI**, Unione Matematica Italiana, since 2019.
- **SIMAI**, Società Italiana di Matematica Applicata e Industriale, since 2023.

Selection committees

- Postdoctoral position on “Efficient isogeometric methods for phase-field modeling, with a focus on fracture simulations”, DICAR, Pavia, 10.2024.
- Postdoctoral position on “Scalable computational modeling of reaction-diffusion PDEs”, Pavia, 9.2024.
- Admission to the “Computational Mathematics and Decision Sciences” PhD programme, Pavia, 1.2023.
- Postdoctoral position on “Metodi numerici per la simulazione di equazioni alle derivate parziali”, Pavia, 5.2022.
- Postdoctoral position on “Adaptive, low-rank and multi-fidelity methods for Forward and Inverse UQ of PDEs with random coefficients”, IMATI-CNR, 12.2021.
- Postdoctoral position on “Hydrologic-hydrogeological modelling of surface and sub-surface water flow and transport”, Pavia, 11.2021.
- Two postdoctoral positions on “Risolutori paralleli scalabili per modelli di reazione-diffusione in elettromeccanica cardiaca”, Pavia, 6.2021.
- Postdoctoral position on “Modellistica numerica di flusso idrico sotterraneo”, Pavia 5.2021.
- Scholarship on “Metodi numerici per la simulazione di propagazione di onde”, Pavia, 3.2021.
- Postdoctoral position “Adaptive multi-fidelity methods for forward and inverse UQ of PDEs and ODEs with random coefficients”, IMATI-CNR, 12.2020.
- Two postdoctoral positions on “Innovative methods for PDEs”, Mathematics, Pavia, 10.2020.
- Postdoctoral position “Mathematical methods for the analysis of PDEs on networks”, IMATI-CNR, 10.2020.
- Admission to the joint PhD in Mathematics, Universities of Milano Bicocca and Pavia, 9.2020.
- Scholarship on “Computational fluid dynamics in geological structures”, Mathematics, Pavia, 7.2020.
- Internal selection committee for the best master dissertation and best PhD dissertation prize “Con.Scienze”, Department of Mathematics, University of Pavia, 9.2019, 9.2020 and 6.2022.
- Postdoctoral position on EPSRC grant EP/N019407/1, Reading, 4.2016.

Other responsibilities

I am the departmental representative in the quality assurance committee (<http://www-aq.unipv.it/>).

At Reading I have been the departmental representative at the Isaac Newton Institute and scrutineer for the applied maths undergraduate exams.

9 Scientific interests

Numerical analysis, approximation of partial differential equations (PDEs) and integral equations. Computational acoustics, electromagnetics, wave propagation. In particular:

- Non-polynomial **Trefftz-discontinuous Galerkin** methods for time-harmonic problems: Helmholtz [25, 28, 30, 36, 37, 44, 55] and Maxwell [32] equations.
- **Quasi-Trefftz** methods [4, 9, 38].
- Approximation theory, also by **plane waves** and other non-polynomial functions [6, 29, 31, 34, 35, 39, 42, 54, 55].
- **Wavenumber-explicit** analysis of time-harmonic boundary value problems, quasi-resonances, applications of Rellich- and Morawetz-type identities [7, 11, 18, 27, 33].
- **Coercive** (sign-definite) formulations for wave problems [19, 27, 40, 53].
- Sobolev spaces on non-Lipschitz and fractal sets [13, 21–23], interpolation of Hilbert spaces [26].
- Scattering by **non-Lipschitz and fractal** obstacles, integral equations and numerical methods [1, 3, 10, 14].
- Discrete dipole approximation (DDA) [17], hybrid numerical-asymptotic boundary element methods (HNA-BEM) [16], embedding formulae [41, 48].
- **Space-time** discretisations of evolution PDEs:
 wave [2, 9, 15, 20, 24, 40, 49, 50], Schroedinger [4, 8, 12], and heat [5] equations;
 using DG [15], Trefftz DG [8, 12, 20, 24, 49, 50], quasi-Trefftz [4, 9], virtual element [5], and spline-based [2, 40] discretisations.
